

Video for Journalism : Shooting and Editing Footage

Course Description

Increasingly journalists are being asked to shoot professional video footage to accompany reports - often working alone.

The first day of this three day course looks at basic video camera technology, how to capture general footage and record interviews. Days two and three are studio based as you will edit your footage, adding sound and voiceovers.

The course includes a comprehensive introduction to using Adobe Premiere with the emphasis on capturing footage and preparing video for broadcast or the web.

Pre-Course Requirements

No previous video shooting or editing experience is required.

Video for Journalism : Shooting and Editing Footage
